

Creating Fluid Solutions.

Company profile.

Customized solutions for metering and process technology.

Driven by our commitment, our trendsetting products and innovative technologies have set benchmarks for diaphragm pumps and metering systems for over 60 years.

We solve complex tasks from a single source. That ranges from custom pump design, basic and system engineering, global project management, and pretesting to commissioning and maintenance on site. With our consistent will always to develop the best solutions for the customer, we offer you a competitive advantage and visible added value.

Products:

- Diaphragm metering pumps
- Process pumps
- Systems, packages and production units
- System components
- Partner products, e.g. NIKKISO Non-Seal canned motor pumps
- Services for the entire lifecycle

Technologies:

- Hermetically sealed and reliable metering pumps featuring PTFE diaphragms, highly precise metering and the capability for very high pressure.
- LEWA DPS (Diaphragm Protection System) for highest safety

Knowledge transfer:

- LEWA Academy (Employee and customer trainings)
- Partnership with research institutions and universities
- Involved in drafting industry directives

Areas of expertise:

LEWA-Facts

Company executives:
Tsunehisa Suita (CEO)
Dr.-Ing. Martin Fiedler
Stefan Glasmeyer

Founded: 1952

Headquarters:
Leonberg, Region Stuttgart, Germany

14 subsidiaries worldwide,
represented in more than 80 countries

Employees: 1,200 worldwide

Turnover in 2018:
approx. 237 million Euros in sales

LEWA GmbH is certified in accordance with:
DIN EN ISO 9001, 14001 · TR CU · AEO-C ·
OHSAS 18001:2007

Pump design in accordance with:
Directive 2006/42/EC (Machinery Directive)
Directive 2014/34/EU (ATEX)
API 675, API 674

Certified for nuclear plants
in accordance with KTA 1401

Memberships:
VDMA · Europump · Hydraulic Institute ·
ISPE · EHEDG
